An early viewing is highly recommended of this charming and completely refurbished 6 bedroom Farmhouse. The property is set in the peaceful village of Newton Stacey and yet within easy access to the popular market town of Stockbridge.

The farmhouse comprises a large porch area leading to a spacious twin-aspect drawing room with open fire. The dining room, also with open fire, leads to a separate breakfast room and on to a large kitchen with Aga and an independent utility room with plumbing for white goods. There is also a sitting room and an additional small room, which would be ideal for a study area, and a cloakroom. The property benefits from excellent downstairs storage.

Upstairs comprises 5 excellent double bedrooms and one single. The master bedroom has a large ensuite and two of the doubles have built in cupboards. There is a large family bathroom and separate shower room.

The grounds of the farmhouse provide ample parking and a large lawned garden.

From Winchester take the A30 towards stockbridge turning right at Hill Farm Garage on the B3420. After approximately 1 mile turn right towards Newton Stacey and take the next left after another mile. The Farmhouse will be on your left.
