## BCM (IOW) LLP – MOVE TO NEW ISLE OF WIGHT OFFICE

BCM's Isle of Wight's office has now moved from Long Lane, Newport to new and larger premises at Cheeks Farm, Merstone.

James Attrill, David Long and their growing team at BCM Rural Property Specialists have continued to expand their business on the Isle of Wight and this now necessitates the need for a larger office.

The well-designed conversion of an existing farm building provides the ideal rural environment for the team and business.

The Isle of Wight office move comes at a time of ongoing expansion for BCM, who have recently added an Oxford office to their existing base in Winchester.

David Long comments "we are pleased to move into the new offices at Red Barn. This office move gives us much more space to accommodate the growing business. Our newly appointed team members strengthen our sales department and expand the rural side of the business. The team will be delighted to welcome existing and new clients in for a cup of coffee to see the new office and assist with any projects they may have."

BCM will continue to offer the full range of rural consultancy, transactional, valuation and planning services from the new office.
