## RARE OPPORTUNITY TO RENT A FARM ON THE ISLE OF WIGHT

Rural property specialists, BCM have launched Lamsleaze Farm onto the letting market. Lamsleaze Farm is offered on a Farm Business Tenancy for a 15 year term.

Located adjacent to Newtown Creek near Porchfield, the farm comprises an attractive and recently refurbished 5 bedroomed farmhouse, a set of useful farm buildings and 172 acres of pasture.

Lamsleaze Farm sits within an Area of Outstanding Natural Beauty and part is designated as a Site of Special Scientific Interest.

“This is a rare opportunity for a farmer to secure a core holding with a decent house and buildings for a 15 year term. The landlord is particularly committed to protecting and enhancing the environmental worth of the farm and will be obliging the tenant to enter into a Countryside Stewardship Scheme or similar to help achieve that.

We anticipate a high level of interest and the letting process will be run on a formal tender basis.” says Emily Thearle, Land Agent at BCM.

Interested parties are invited to apply to the letting agent for a tender pack and tender form on which any tender must be submitted.

Further details are available on BCM’s website – <https://www.bcm.co.uk/lettings/commercial-lettings/>
