

BCM WEBINAR

TOPIC

NATURAL CAPITAL

How will it fundamentally alter farming and land management in the UK?

WHEN

Tuesday 9 June 2020

15:00 to 15.45

HOST

Oliver Cooper, Associate, BCM

Rural Consultancy, Valuations and Farm & Property Management

GUESTS

Harry Greenfield, CLA

Jamie Marsh, HIWWT

BY

Zoom Meeting [[Click here to register](#)]

DESCRIPTION

BCM are joined by CLA and HIWWT to discuss: “environment v. farming” - Natural Capital is the term that defines the current direction on a lot of these issues and is central to government policy. It also sets the new basis for how land owners will be able to leverage both government payments and payments from private stakeholders (water companies, developers, “polluters” etc.). BCM will discuss the implications alongside CLA and HIWWT.
